

Revocation and Determination
of
Statement of Principles
concerning
SEBORRHOEIC DERMATITIS

for the purposes of the
Veterans' Entitlements Act 1986
and
Military Rehabilitation and Compensation Act 2004

1. The Repatriation Medical Authority under subsection **196B(3)** and **(8)** of the *Veterans' Entitlements Act 1986* (the VEA):
 - (a) revokes Instrument No. 51 of 1999; and
 - (b) determines in its place the following Statement of Principles.

Kind of injury, disease or death

2.
 - (a) This Statement of Principles is about **seborrhoeic dermatitis** and **death from seborrhoeic dermatitis**.
 - (b) For the purposes of this Statement of Principles, “**seborrhoeic dermatitis**” means an exfoliative, chronic dermatitis involving areas of increased sebaceous gland activity, characteristically affecting the scalp, face, ears or the flexural creases of the body.
 - (c) Seborrhoeic dermatitis attracts ICD-10-AM code L21.0, L21.8 or L21.9.
 - (d) In the application of this Statement of Principles, the definition of “**seborrhoeic dermatitis**” is that given at paragraph 2(b) above.

Basis for determining the factors

3. On the sound medical-scientific evidence available, the Repatriation Medical Authority is of the view that it is more probable than not that **seborrhoeic dermatitis** and **death from seborrhoeic dermatitis** can be related to relevant service rendered by veterans or members of the Forces under the VEA, or members under the *Military Rehabilitation and Compensation Act 2004* (the MRCA).

Factors that must be related to service

4. Subject to clause 6, at least one of the factors set out in clause 5 must be related to the relevant service rendered by the person.

Factors

5. The factor that must exist before it can be said that, on the balance of probabilities, **seborrhoeic dermatitis** or **death from seborrhoeic dermatitis** is connected with the circumstances of a person's relevant service is:
 - (a) being infected with Human Immunodeficiency Virus (HIV) at the time of the clinical onset of seborrhoeic dermatitis; or
 - (b) having Parkinson's disease or secondary parkinsonism at the time of the clinical onset of seborrhoeic dermatitis; or
 - (c) having:
 - (i) a permanent physical disability, or
 - (ii) a psychiatric disease from the specified list,
which limits the person's ability to maintain personal hygiene of the affected area immediately before the clinical onset of seborrhoeic dermatitis; or
 - (d) being infected with Human Immunodeficiency Virus (HIV) at the time of the clinical worsening of seborrhoeic dermatitis; or
 - (e) having Parkinson's disease or secondary parkinsonism at the time of the clinical worsening of seborrhoeic dermatitis; or

- (f) having:
 - (i) a permanent physical disability or
 - (ii) a psychiatric disease from the specified list,which limits the person's ability to maintain personal hygiene of the affected area immediately before the clinical worsening of seborrhoeic dermatitis; or
- (g) inability to obtain appropriate clinical management for seborrhoeic dermatitis.

Factors that apply only to material contribution or aggravation

- 6. Paragraphs 5(d) to 5(g) apply only to material contribution to, or aggravation of, seborrhoeic dermatitis where the person's seborrhoeic dermatitis was suffered or contracted before or during (but not arising out of) the person's relevant service.

Inclusion of Statements of Principles

- 7. In this Statement of Principles if a relevant factor applies and that factor includes an injury or disease in respect of which there is a Statement of Principles then the factors in that last mentioned Statement of Principles apply in accordance with the terms of that Statement of Principles.

Other definitions

- 8. For the purposes of this Statement of Principles:

“a psychiatric disease from the specified list” means:

- (a) schizophrenia; or
- (b) major depressive disorder; or
- (c) bipolar depressive disorder; or
- (d) panic disorder with agoraphobia;

“being infected with Human Immunodeficiency Virus (HIV)” means serological evidence of infection with Human Immunodeficiency Virus;

“death from seborrhoeic dermatitis” in relation to a person includes death from a terminal event or condition that was contributed to by the person's seborrhoeic dermatitis;

“ICD-10-AM code” means a number assigned to a particular kind of injury or disease in The International Statistical Classification of Diseases and Related Health Problems, 10th revision, Australian Modification (ICD-10-AM), Fourth Edition, effective date of 1 July 2004, copyrighted by the National Centre for Classification in Health, Sydney, NSW, and having ISBN 1 86487 594 1;

“relevant service” means:

- (a) eligible war service (other than operational service) under the VEA; or
- (b) defence service (other than hazardous service) under the VEA; or
- (c) peacetime service under the MRCA;

“terminal event” means the proximate or ultimate cause of death and includes:

- (a) pneumonia;
- (b) respiratory failure;
- (c) cardiac arrest;
- (d) circulatory failure; or
- (e) cessation of brain function.

Application

9. This Instrument applies to all matters to which section 120B of the VEA or section 339 of the MRCA applies.

Date of effect

10. This Instrument takes effect from 20 July 2005.

Dated this *eighth* day of *July* 2005

The Common Seal of the)
Repatriation Medical Authority)
was affixed to this instrument)
