Title

1. This Instrument may be cited as Statement of Principles concerning influenza No. 58 of 2009.

 - (a) revokes Instrument No. 267 of 1995 concerning influenza; and
 - (b) determines in its place this Statement of Principles.

Kind of injury, disease or death

3.
 - (a) This Statement of Principles is about **influenza** and **death from influenza**.
 - (b) For the purposes of this Statement of Principles, "**influenza**" means an acute respiratory tract infection due to the influenza virus and characterised by fever, cough, shortness of breath, headaches, myalgia, conjunctivitis and pneumonia. This definition includes infection with human, avian and animal influenza subtypes.
 - (c) Influenza attracts ICD-10-AM code J09, J10 or J11.

Basis for determining the factors

4. The Repatriation Medical Authority is of the view that there is sound medical-scientific evidence that indicates that **influenza** and **death from influenza** can be related to relevant service rendered by veterans, members of Peacekeeping Forces, or members of the Forces under the VEA, or members under the *Military Rehabilitation and Compensation Act 2004* (the MRCA).

Factors that must be related to service

5. Subject to clause 7, at least one of the factors set out in clause 6 must be related to the relevant service rendered by the person.

Factors

6. The factor that must as a minimum exist before it can be said that a reasonable hypothesis has been raised connecting **influenza** or **death from influenza** with the circumstances of a person's relevant service is:
 - (a) being exposed to the influenza virus within the three weeks before the clinical onset of influenza; or
 - (b) inability to obtain appropriate clinical management for influenza.

Factors that apply only to material contribution or aggravation

7. Paragraph **6(b)** applies only to material contribution to, or aggravation of, influenza where the person's influenza was suffered or contracted before or during (but not arising out of) the person's relevant service.

Inclusion of Statements of Principles

8. In this Statement of Principles if a relevant factor applies and that factor includes an injury or disease in respect of which there is a Statement of Principles then the factors in that last mentioned Statement of Principles apply in accordance with the terms of that Statement of Principles as in force from time to time.
